## UPCOMING EVENTS

Summer has flown by, and we can't believe it's already the last week of camp! From exciting activities to creative projects and plenty of outdoor adventures, our campers have made this season one to remember.

To mark our last theme day, this Thursday our campers will step into the shoes of their future selves for Career Day! Whether they dream of becoming scientists, athletes, artists, or doctors, campers will get the chance to explore different careers and share their big ideas. It's a celebration of imagination, inspiration, and the fun of dreaming about the future!

## CAMPER CORNER

## CAMP HIGHLIGHTS

Campers got hands-on with nature and art by sculpting their very own seashells out of clay! They explored the shapes and patterns found in real shells, then used their imaginations to design unique creations of their own. This activity blended creativity with a love for the shoreline—each camper left with a one-of-a-kind keepsake to remind them of their time at camp.

After learning about local turtle species and the important role they play in our ecosystems, campers helped return young turtles safely to their natural habitat. It was a special moment filled with excitement, care, and connection to nature.

- Our campers got creative this week by making their very own chia seed planters! Each camper decorated a cup with their photo, planted chia seeds inside, and now gets to watch their "hair" grow in the days ahead. It was a hands-on way to learn about plant growth while adding a personal twist!
  - Seen in photos campers with their chia seed plants!
